ABOUT ME

A well-educated and structured BSc in IT final-year undergraduate with a solid foundation in Commerce (AAT and CA Business Level qualified). I pride myself on deep understanding, careful planning, and executing tasks to the highest standard. Known for a respectful, professional, and collaborative approach, I am an adaptable fast-learner who welcomes feedback and thrives in environments that demand a balance of technical skill, financial literacy, and teamwork.

Completed BL2 in 2020

Passed Finalist
Completed in 2019

TECHNICAL SKILLS

AI, Machine Learning & Data Science

- Machine Learning
- Natural Language Processing (NLP)
- Data Preprocessing & Feature Engineering
- Model Training & Evaluation
- Bias Detection & Fairness Analysis

Domain Expertise

- Financial Accounting
- Management Accounting
- Information Systems
- Artificial Intelligence
- Data Analysis
- Information Technology

Programming Languages & Coding

- C, C++
- Python
- Java
- JavaScript
- HTML
- SQL

Development Tools

- GitHub
- Visual Studio Code
- Quincity
- Code::Blocks
- Jupyter Notebook

PROJECTS

SkillSync - AI Powered Resume Screening & Recruitment System

- Developed an AI/NLP-based recruitment platform for automated CV screening.
- Led a 4-member team and managed project planning and development.
- Implemented fairness analysis and bias mitigation techniques.
- Utilized Python, Machine Learning, and NLP techniques.

Student Grade Prediction System

- Built predictive models using regression algorithms.
- Led a 5-member team and managed project planning and development.
- Performed data preprocessing, feature engineering, and model evaluation.
- Improved prediction accuracy through model optimization.

OTHER SKILLS & TALENTS

- Proficient with Hardware & Electronics
- Automobiles and Mechanical Knowledge
- Leadership, Crowd handling, & Teamwork
- Communication, Announcing, & Oratory
- Singing and Musical Instruments
